PROFESSIONAL SUMMARY

Solid technical foundation and hands-on experience across the entire application lifecycle: **reactive frontend**, **scalable backend APIs**, **native Android development**, and **containerized orchestration with Podman/Docker in Linux environments**.

WORK EXPERIENCE

FULL STACK & AUTOMATION DEVELOPER
25/05/2026 – Present
Obrador de Pastelería Lidia Helem • Almería, Spain

- **E-commerce & Management Dashboard (React, Vite, Express, SMTP):** Architecture and development of the digital storefront, interactive custom cake catalog, dynamic cart, pickup date scheduler, and automated email notifications.
- **Process Automation (Python & ReportLab):** Batch generation of regulatory-compliant technical data sheets in PDF for allergens and nutritional tables, reducing administrative overhead and boosting web SEO.
- **DeltaTraz Ecosystem (Android Kotlin, OCR, Podman):** Comprehensive end-to-end food traceability platform featuring a native Android app for OCR ingredient scanning, OpenFoodFacts integration, and containerized deployment.

Stack: React • Node/Express • Python (ReportLab) • Kotlin • ML Kit OCR • Podman • MariaDB

APPLICATION DEVELOPER (Workplace Training FCT DAW - 500 h)
09/02/2026 – 22/05/2026
Explotaciones Agrícolas Hermanos Chumbos S.L. • Cuevas del Almanzora, Almería

Full autonomy in technology stack selection and delivery of production solutions:

- **Native Android App (Kotlin, Room DB, REST API):** End-to-end development of mobile time-tracking, work logs, and geolocated clock-in system with bidirectional synchronization to Velneo ERP software.
- **Full Stack Web & Whistleblowing Channel (Astro, Prisma, MariaDB):** Development of corporate web portal, dynamic agricultural product catalog, and confidential whistleblowing channel complying with EU regulations.
- **Autonomous WhatsApp Chatbot (Node.js, MariaDB, Podman):** 24/7 containerized assistant for field worker inquiries and real-time farmland GPS coordinate lookup.
- **IT Support & Infrastructure:** Preventive maintenance, network administration, and operational technical support.

Stack: Android Kotlin • Room SQLite • Astro • Prisma ORM • Node.js • Velneo ERP • Podman

PRIVATE TUTOR IN COMPUTER SCIENCE & ICT
28/09/2022 – 20/04/2023
Personalized Private Tutoring • Turre, Almería

- Delivered customized classes from beginner level: operating system management, file organization, safe web browsing, and advanced office productivity tools (Word, Excel, PowerPoint).
- Pedagogical mentoring with outstanding academic results and complete student autonomy in ICT skills.

VOLUNTEER - SCHOOL SUCCESS PROGRAM
15/09/2023 – 15/03/2024
Spanish Red Cross • Vera, Almería

- Academic support and educational tutoring for primary school children in mathematics, reading comprehension, and motivation.

RESTAURANT & BAR SERVER
2022 – 2023
Gelatería Alberto's (Mojácar) • Rincón del Puerto (Garrucha)

- Customer service in dining room, bar, and outdoor terrace during peak seasonal periods.
- Team coordination, prompt issue resolution, effective stress management, and operational support.
